At the request of the Chinese government, an article has been incorporated in the treaty by which the United States consents to the prohibition of the importation into China of morphine and of instruments for its injection.

Another article of the treaty provides for the opening to internal trade, in the same conditions and manner as other places are now opened to like trade in China, of the cities of Fung Tien Fu (Mukden) and Antung, the first the capital of the Manchurian province of Sheng Ching and the latter a port on the Yalu river on the road between Mukden and Wiju, in Korea.

#### GREAT NORTHERN MEETING

Little Information Given to the Public.

New York, Oct. 8.—The annual stockholders' meeting of the Great Northern railroad was held today and the three directors whose terms expire, R. I. Farrington, M. D. Grover and Edward Sawyer, were re-elected. No direct statement in regard to how much stock had been voted could be obtained. Wall street was interested in the annual meeting of the Great Northern to find out if the injunction against the Northern Securities company handed down by the United States circuit court at St. Paul last April, restraining that company from voting either the stock of the Great Northern or the Northern Pacific, would prevent the annual meeting of the Great Northern as it did that of the Northern Pacific on Tuesday.

In the case of the Northern Pacific company it was found that the Northern Securities owned four-fifths of the stock; therefore, as only one-fifth was outstanding, it was useless to attempt an election and the annual meeting was adjourned.

Of the six shareholders present at today's meeting of the Great Northern stockholders there were general officers of the Northern Securities company and two were members of the board of directors of the Great Northern railway. One of the officers of the Northern Securities company who attended the meeting was asked how many shares were voted, and he replied, "A majority of the stock was present."

#### STILL PURSUING THEM.

Attorney Folk Seeks to Extradite Fugitives.

Washington, Oct. 8.—Joseph Folk, the city attorney of St. Louis, who has been active in recent months in the prosecution of legislative and municipal wrongdoers in Missouri, was a guest of the president at luncheon today. Mr. Folk has encountered some difficulty in the performance of his duties on account of the escape of a few of those whose indictments he had secured, into Canada and Mexico. He is anxious that the extradition treaties between those governments and the United States be so amended and strengthened as to admit of the return to this country of the persons who have been indicted for bribery, embezzlement, etc. He desires that the president should take up the matter for consideration with Secretary Hay and, if possible, have the suggested amendments to the treaties made.

After luncheon at the White House the president and Mr. Folk had a further conference at the executive office, at which Secretary Hay was present. The three went over the matter of amending the extradition treaties. Subsequently Mr. Folk had a brief conference with Attorney General Knox at the department of justice. No statement was made public concerning the results of the several conferences.

#### FIGHT ON THE MERGER.

Peter Power Case Before U. S. Court of Appeals.

St. Paul, Oct. 8.—Arguments were begun today in the United States court of appeals in the case of Camille Weidenfeld against the Northern Pacific road. This is the original Peter Power case—the first case brought by Weidenfeld against the merger before it had completed its deal for control of the two railroad systems.

The arguments are made on an appeal by Weidenfeld from the order of the United States circuit court through Judge Lochran, dismissing the bill of complaint against the railroad two years ago.

The original action was brought to enjoin the Northern Pacific road from retiring \$75,000,000 of preferred stock—the first move in the merger game.

The attorneys for Weidenfeld insist that the case involves directly the entire merger question, while the appellee claims it does not.

#### THE DEATH RECORD.

Captain Perry Bartholomew.

St. Louis, Oct. 8.—Captain Perry Bartholomew, late treasurer and secretary of the Louisiana Purchase exposition, who has been ill with lung trouble for some time, died here today. He had been connected with the world's fair since its inception. Captain Bartholomew was related to Mrs. Francis, wife of President Francis.

N. W. Spaulding.

New Britain, Conn., Oct. 8.—N. W. Spaulding, who was mayor of Oakland, Cal. for five terms and was treasurer of the United States mint under President Hayes, died here last night, aged 71 years. Mr. Spaulding came here July 1 to develop some patents in which he was interested. He was a graduate of Stanford university and was a thirty-third degree Mason.

#### ANTARCTIC EXPEDITION.

Buenos Ayres, Oct. 8.—The Argentine gunboat Uruguay, 550 tons, started today for the Antarctic region in search for the Swedish expedition headed by Dr. Otto Nordenskjöld.

The Nordenskjöld expedition left Gothenburg, Sweden, Oct. 16, 1901, on the steamer Antarctic, and was last heard from Aug. 18 last, when the vessel was imprisoned in the ice.

#### ELEVATOR BURNED.

Missouri Valley, Ia., Oct. 8.—Fire today destroyed the Updyke Grain company's elevator in this city, together with 300,000 bushels of grain. Loss \$200,000, fully insured.

#### PLATT SEEKS TO GAIN CONTROL

Situation in Greater New York in a Nutshell.

#### PARTISAN FIGHT NOW ON

RESULT WILL WEIGH HEAVILY NEXT YEAR.

NEW YORK, Oct. 8.—President Forster of the board of aldermen issued a statement tonight containing the following: "Because I consented to have my candidacy endorsed by the regular Democratic organization I am declared unworthy of going before the electorate upon the fusion ticket—and by whom? By Mr. Bruce, recently from Delaware county, and now chairman of the Republican county committee; by Mr. Platt, the 'easy boss' of the Republican party, and whose official life has been conspicuous chiefly for his success in brokerage and public offices in order that his henchmen might strengthen him in the primary contests of the Republican party; by Mr. O'Dell, a partisan Republican governor, who, previous to his election, had exalted office was distinguished chiefly for his ability to control legislation through the unsavory meshes of the lobby, and whom the people of this city repudiated at the last election by the most overwhelming defeat that any candidate for public office ever suffered at his hands. These are the men, and these are the forces which have cast a blight over the cause of fusion and struck the deadliest blow at non-partisan municipal government which it has ever received."

Mr. Grout's Statement.

Mr. Grout says: "All parties, all newspapers agree that I have been an honest and efficient comptroller. I shall stand for re-election on that record, which all have approved. Before I went away on vacation I had made known to some fusion managers the very details of my private business affairs which made me unwilling to continue in office. I accepted at Mr. Low's personal request, and in spite of every other inducement and argument, then I was offered an endorsement by the Democratic party. I did not seek it. I did not bargain, and I did not agree. I was not bought, sold or gagged. I made no concealment of my belief that, if taken sanely by the fusionists, such an endorsement would help Mr. Low. And I am abused, outraged, expelled. Why? Because I say that the campaign should be fought by argument, by proofs, by appeals to reason, not by denunciation, bitter words and appeals to passion. I shall ask every taxpayer whose bill this year is reduced to remember that it would not have been less if I had not been comptroller. "As a Democrat I shall ask the Democrats of this city to notice how this situation has been made at the direction of Platt and his intimates, and to say whether this Democratic city really turned over to Platt. The position of the Republican machine and of Mr. Cutting has become the acme of partisanship."

#### UNDER PLATT'S RULE.

Mr. Grout's Opinion of the Citizens' Union.

New York, Oct. 8.—Comptroller Grout issued a statement today in reply to the actions of the convention last night. In his statement he charges the Citizens' union with being under Senator Platt's rule, and he says that he will fight his being taken off the ticket to the end. He ends his statement by saying: "And, finally, I shall appeal to all fair minded people to say whether a man whom they have known to be honest and efficient should be destroyed by the species of lynch laws and mob rule which has prevailed this fortnight past."

Frederick W. Henrichs, who was nominated last night by the fusionist ticket for comptroller, said today at his office that he would accept the nomination.

Without the rumored opposition of Mr. Forner or Mr. Grout the full fusion ticket was filed and accepted at the bureau of election, and the Citizens' union, secretary of the Republican county convention.

#### Profess Confidence.

New York, Oct. 8.—M. Lim Bruce, chairman of the county Republican committee, issued a statement today in which he said:

"The anti-Tammany ticket is now complete. The mistakes have been eliminated, and all friends and supporters of clean, honest and high-class city government now united and aggressive in the fight to prevent a return to power of the combination for personal gain known as Tammany hall."

"We shall fight this campaign on the only issue before the people, the continuance of good city government. Tammany is the common enemy, and against Tammany, we shall wage war to the end. The anti-Tammany forces enter the campaign confident of victory."

#### EDSON GOES DUCK HUNTING

Rio Grande Manager and Superintendent Young Leave For Bear River.

Manager J. A. Edson of the Rio Grande system passed through Salt Lake yesterday. He was joined by Superintendent J. H. Young of the Rio Grande Western, and the two went north last night for two or three days' duck shooting on Bear river.

Mr. Edson said he could state nothing further as to the plans of the Rio Grande regarding passenger station, yards and shops until the franchise matter and the injunction suit had been finally settled.

"I will say, however," he declared, "that it is the policy of the Rio Grande to proceed with the plans for building a depot and enlarging the yard and shop facilities as soon as the legal matters are disposed of and we are permitted to do so."

It was stated that the shop plans call for the expenditure of \$400,000. Work on these will begin as soon as the franchise question is settled. Mr. Edson was accompanied by Chief Engineer E. J. Yard, who has been recently looking after the survey of an extension of the Marysville branch to the iron deposits near Cedar City.

#### SLOWLY RECOVERING.

Dr. Rice Does Not Believe He Killed Anyone.

Pueblo, Colo., Oct. 8.—Dr. Rice, a prominent physician, who, killed by liquor, last night shot and killed Officer Silas Marks, who was trying to arrest him, drove the clerks from a drug store and defied a crowd of 3,000 people for more than two hours, is slowly recovering his mind in the county jail. He refuses to believe that he has killed anyone and says he has been thrown in jail by his relatives.

All talk of lynching has died out and the coroner has ordered a jury and will investigate the crime.

Officer Slater, who was accidentally wounded during the attempt to capture Rice, is improving and will recover unless complications set in.

#### GUTTED BY FIRE.

Binghamton, N. Y., Oct. 8.—Fire which started on the stage of the Stone opera house completely gutted the structure early today, entailing a loss of \$150,000.

#### ALL PARTIES TALK OF TARIFF

Keen Discussion of Mr. Chamberlain's Proposals.

#### LIBERALS QUITE SARCASTIC

COLONIES VIEW THE SCHEME WITH FAVOR.

London, Oct. 8.—The discussion of Mr. Chamberlain's proposals continues keen, but so far the liberals have made no organized attempt at a counter demonstration. Mr. Asquith, the liberal leader, spoke at Cinderford, an iron and coal center in Gloucestershire, yesterday, and in the course of his speech contended that it was impossible to retaliate upon the protected countries without taxing food or raw material, and experience showed that retaliation did more harm to the retaliators than to the retaliated. The adoption of Mr. Chamberlain's proposals would foment quarrels with the colonies. It was a canny on the colonies to say that the unity of the empire was impossible without preferential tariffs.

James Bryce, M. P., speaking at Lancaster, expressed similar opinions and characterized Mr. Chamberlain's statements as "grotesquely untrue and worthless."

Gerald Balfour, president of the board of trade, addressing a meeting at Leeds, yesterday, said that the government was pledged not to give effect to the fiscal reform proposals until after an appeal to the country had been made and he intimated the possibility that after Mr. Chamberlain had concluded his mission it might be found that the taxation of food was within the range of practical politics.

Sir Charles Tupper, the Canadian premier, presiding at a meeting in London, expressed his complete approval of Mr. Chamberlain's policy.

The newspapers are industriously collecting prominent liberal opinion on the fiscal question, which so far is unduly enthusiastic, although largely favorable to Mr. Chamberlain's proposals. Alfred Deakin, the federal premier of Australia, says that the proposals are so precise and practical that they require an equally precise reply. The federal government would announce its dissent to the proposals in about three weeks' time as a basis for the coming federal election campaign.
